

What **Agencies** are saying about....

One Stop Shopping

" Having only one site on the Internet for all our services means a contractor doesn't have to search for things they need. They only have one location to look - Bid Express. "

-Roger Bierbaum
Iowa Department
of Transportation

Ease of Use

" The contractors were very skeptical about bidding electronically, but were pleasantly surprised at the ease of doing so. We have contacts here at S.C.D.O.T. that helped them with many questions, but there were still many that called [Bidx.com] and were pleased with the service. The support and patience exhibited by your employees has been very professional and very friendly. "

-Wanda Webb
South Carolina Department
of Transportation

Resource Savings

" We have really enjoyed Bid Express and the service it provides. The contractors pay for the service they receive and the department benefits from the product being managed by BidX.com. This saves us even more resources. "

-David Castleberg, P.E.,
Wisconsin Dept. of
Transportation

Convenience

" Contractors are signing on because of the convenience. When they bid over the internet, they are able to stay at the office. They can perhaps get a better quote on an item and adjust and submit their bids at the last moment. "

-Lem Dobbs
Georgia Department
of Transportation

According to a 2009 survey...

Bid Express agencies report 100% overall satisfaction with the service

- 95% call it a 'good value' for bidders
- 95% say our staff is technically adept at meeting their needs
- 90% would recommend Bid Express to local agencies; 95% would recommend to state/provincial agencies
- 95% say our customer support to subscribers is excellent
- 66% of agencies reduced staff after implementing; many of these reduced by 50% or more
- Agencies are saving an average of more than 27 hours per solicitation
